Student Advising, DeGroot School of Medicine
Director, Medical-Step Down/CCU,
St. Joseph's Healthcare Hamilton*

LEARNING OBJECTIVES:

- Describe the range of challenges that survivors of critical illness (and their caregivers) face from psychological, cognitive, and physical perspectives.
- To review pertinent research into the components of Post-Intensive Care Syndrome.
- Review opportunities to enhance clinical care within the intensive care unit environment and upon transitions into community care.
- To learn about research in early rehabilitation strategies to improve outcomes for ICU survivors.
