A TRANSLATIONAL VIEW OF:

Tissue Fibrosis – Killer Number One in the Western World

This seminar includes a clinical presentation with patient interview followed by a research presentation

SPEAKERS:

Dr. Martin Kolb

*Associate Professor,
Department of Medicine*

Dr. Jack Gauldie

*University Professor,
Department of Pathology and Molecular Medicine*

LEARNING OBJECTIVES:

- Outline the general concept of healing, scar formation and fibrosis.
- Understand the clinical presentation of debilitating lung fibrosis and how it worsens over time.
- Review the pathobiology underlying lung fibrosis.
- Understand how these pathogenetic concepts are translated into drug development.

Department of Medicine
