Medical illustrations and presentations

as tools to educate your audience about your research

SPEAKERS:

Dr. Mark Inman
Professor, Department of Medicine

Dr. Geoff Norman
Assistant Dean, Program for Educational Research and Development (PERD)
Canada Research Chair in Cognitive Dimensions of Clinical Expertise
Professor, Department of Clinical Epidemiology and Biostatistics
Associate Member, Department of Psychiatry

LEARNING OBJECTIVES:

- Appreciate that illustrations can help you and your reader better understand complex issues raised in your research.
- To gain insight into approaches and techniques for making effective illustrations.
- To appreciate that presentation techniques are vital to how well you achieve your “teaching objective” with your audience.
- To gain insight into how to create and deliver your presentations for greater effect in achieving these teaching objectives.
