Mediterranean Diet: a Myth or a New Avenue for Cancer Prevention?

SPEAKERS:

Professor Paola Muti

*Dofasco Chair Cancer Experimental Therapeutics
Department of Oncology
Faculty of Health Science
McMaster University*

Professor Gregory R. Steinberg

*Canada Research Chair in Metabolism and Obesity
J Bruce Duncan Chair in Metabolic Diseases
Co-Director MAC-Obesity Research Program
Division of Endocrinology and Metabolism
Department of Medicine
McMaster University*

LEARNING OBJECTIVES:

- To learn about Mediterranean Diet
- To learn about new observational and clinical studies on nutrition and Cancer Etiology
- To learn how the metabolism of cancer cells alters their growth and proliferation
- To learn how the cellular metabolic sensor AMPK may be a potential mediator of life-style factors and cancer progression
