## A TRANSLATIONAL VIEW OF:

# Pneumonia, still the old man's friend?

This seminar includes a clinical presentation with patient interview followed by a research presentation

## SPEAKERS:

### **Dr. Christopher Patterson**

*Professor, Division of Geriatric Medicine,  
Department of Medicine*

### **Dr. Dawn Bowdish**

*Assistant Professor,  
Division of Molecular Medicine,  
Department of Pathology and Molecular Medicine*

## LEARNING OBJECTIVES:

- Describe delirium as a consequence of acute illness in older people
- Recognize deconditioning as a preventable problem in older people
- Investigate current hypotheses about why we live as long as we do, why there is a gender difference in the aging trajectory and why our health fails with age.
- Understand the role of chronic inflammation in the aging process and how it contributes to age-related diseases such as dementia.
